

Graduate Student Internships for Ph.D. Students - 2010

Statistical Sciences Group, Los Alamos National Laboratory

Deadline for Applying

Year-round, apply by February to be considered for summer positions

Brief Description of Work: As Graduate Research Assistant Student Interns, students will participate in interdisciplinary, collaborative studies under the supervision of experienced Statisticians from the Los Alamos National Laboratory Statistical Sciences Group. Activities will vary, depending on the specific project, but may involve data analysis, statistical programming, literature searches, and development and application of statistical methods. Students will be expected to document their work in the form of a technical report or paper and will be provided opportunities to present their work at a seminar, student poster forum, or professional meeting. Position requires graduate-level coursework in Statistics, familiarity with data analysis methods, and experience with programming and statistical software. Excellent communication skills and the ability to work independently are also expected.

Name and Address of Person to Contact:

Statistical Sciences Student Programs Coordinator
Statistical Sciences Group, MS F600
Los Alamos National Laboratory
P.O. Box 1663
Los Alamos, NM 87545
